

A photograph of a teacher and two young students in a classroom. The teacher, a woman with dark hair, is leaning over a desk, looking down at a book or paper. In the foreground, a young boy with light brown hair is looking up at the camera with a slight smile. To his left, a young girl with dark hair is looking down, possibly at a book. The background is slightly blurred, showing a classroom setting with a bookshelf and some plants. The entire image has a teal/cyan color overlay.

About Us

We are a company that places great importance on innovation.

The three "i" in our name represent the process of innovation : idea, invention and implementation

We are convinced that with our most recent innovations, the Rolliii, that all the elements are there to achieve our mission !

**Antoine Robillard
Founder of Robiii**

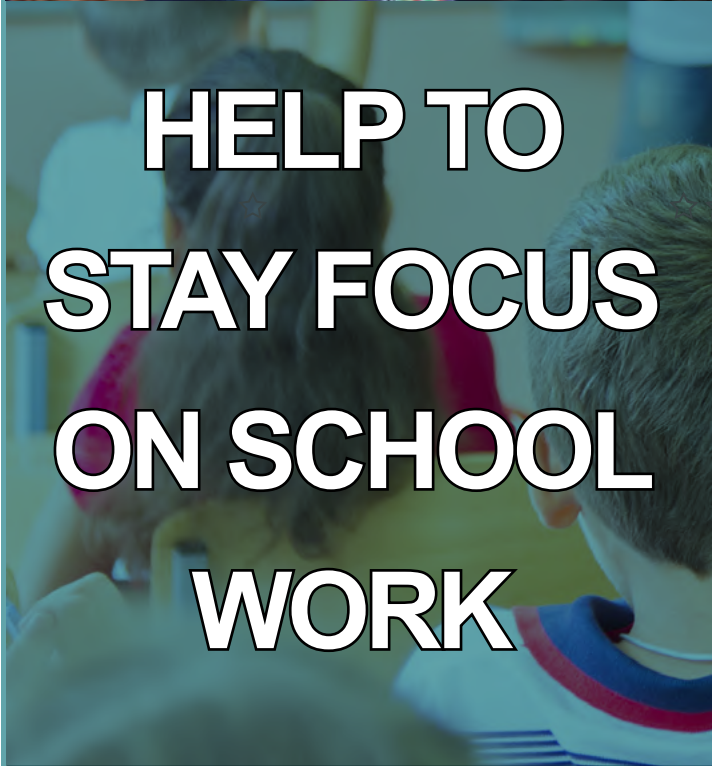

Having learning disabilities myself, I experimented with many products...

I saw that there was an opportunity to innovate in quiet educational tools and toys.

Indeed, I first designed the product only for personal use, but it helped me so much in my final exams that I produced it for everyone!

**SATISFYING,
